ArithmeticTrading  
— Financial Trading Systems that Work! —

## Disclaimer

Forex, futures, stock, and options trading are not appropriate for everyone. There is a substantial risk of loss associated with trading these markets. Losses can and will occur. No system or methodology has ever been developed that can guarantee profits or ensure freedom from losses. No representation or implication is being made that using the PipSpring methodology, systems, trade alert software or the information in the website will generate profits or ensure freedom from losses. ## Licensing

Congratulations for securing Copy of **Forex Neural Profits Trade Alert Software**.

Each copy purchased can work for one user on a maximum of 3 computers. If you use the software on more than 3 computers, it will freeze or stop taking trades.

You don't need to do anything to activate the software it's done automatically by an algorithm when you connect to the internet.

## Background

I have been trading part time since 2006 and started trading full time in 2008. My partner Reza has a background in Mathematics, Software Programming and financial trading.

We met with Reza a couple of years ago and discovered our interest in trading and our desire to change the trading Arena.

Forex Neural Profits Trade Alert Software is one of the major projects this year. We have a vision to design a trading system that truly works for every kind of trader.

- For those with a day job and prefer to trade part time
- For those who like to see rapid movement and close their trades by close of business
- For those who like to capture big trades and let them run for days
- For those who like to retain control of their trading and get involved in every trade entry and exit
- For those who like to experiment and try out new ideas in their trading
- For those who just want to make money

Forex Neural Profits Trade Alert Software is here to meet every trader's unique trading situation as you'll discover below.

### Recommended Broker

For our software, Forex Neural Profits to work it requires that you open an account (Real or Demo) with a Metatrader forex broker.

We recommend:

Our No. 1 Recommended Broker

<https://my.myfxchoice.com/registration/?ib=9146> (Open this link on your browser to open a trading account)

## Installing Forex Neural Profits Trade Alert software

There are five files present that you'll need for installation:

- ⇒ Forex\_Neural\_Profits\_System.exe
- ⇒ Forex\_Neural\_Profits\_Indicator\_1.ex4
- ⇒ Forex\_Neural\_Profits\_Indicator\_2.ex4
- ⇒ Forex\_Neural\_Profits\_Manual\_EA.ex4
- ⇒ Forex\_Neural\_Profits.tpl (*optional*)

With these three files you have two ways in which you can do the Installation

1. Plug-n-play (one click install)
2. Manual drag-n-drop installation

Let's cover each of the installation method below:

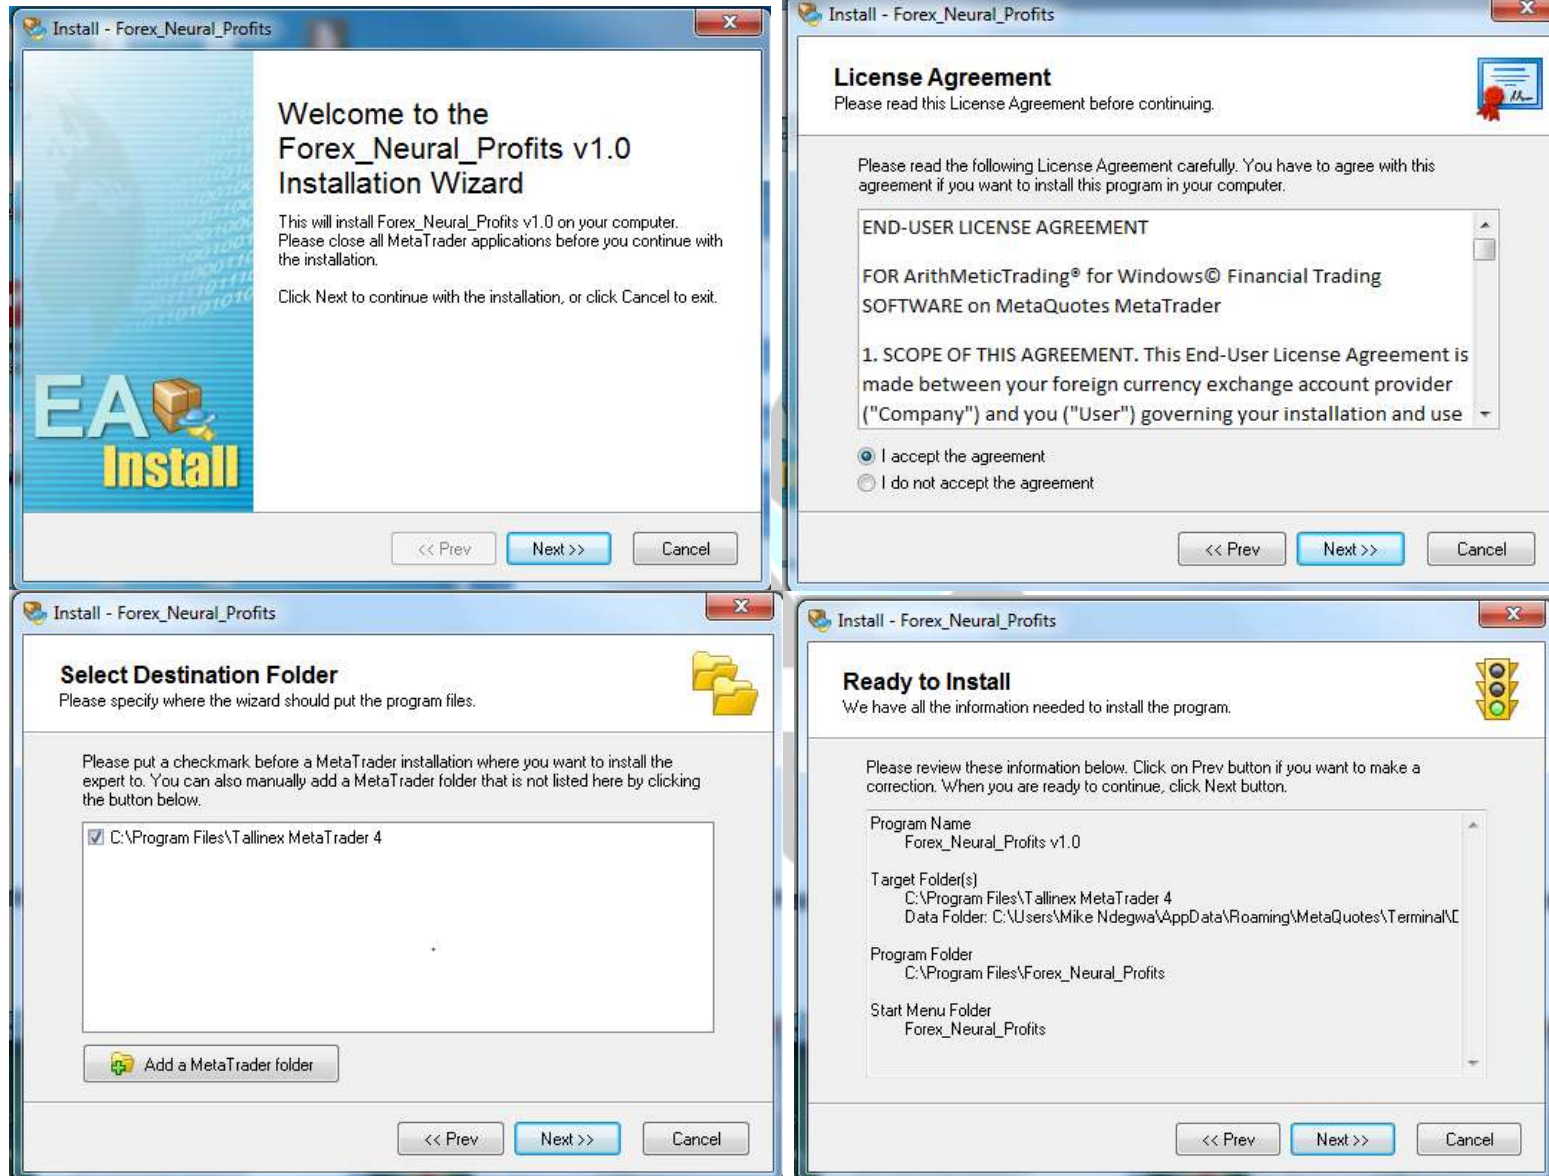

### **Plug-n-play (one click install)**

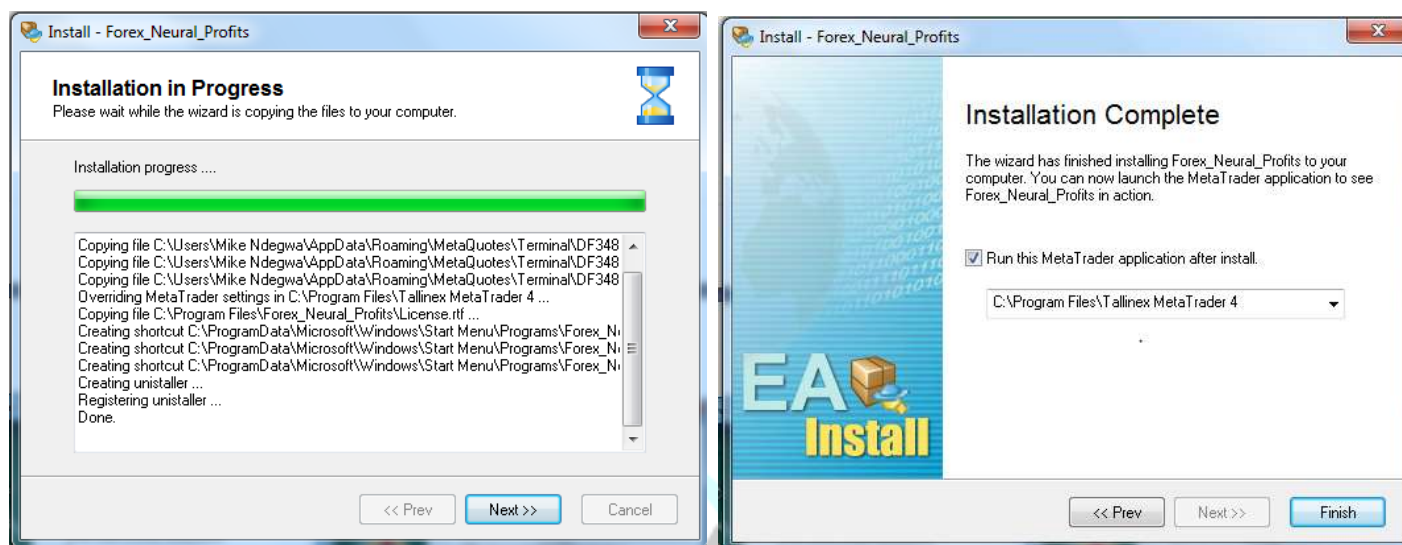

You need the following file:

- ⇒ Forex\_Neural\_Profits\_System.exe

*Ensure all Metatrader platforms are closed*

Double click the file: **Forex\_Neural\_Profits\_System.exe** and follow the steps as shown below;

## Manual Drag-n-Drop Installation

The first method is the easiest, but incase it doesn't work out for you then you might want to manually install the files in their correct places.

You need the following files:

- ⇒ Forex\_Neural\_Profits\_Indicator\_1.ex4
- ⇒ Forex\_Neural\_Profits\_Indicator\_2.ex4
- ⇒ Forex\_Neural\_Profits\_EA.ex4
- ⇒ Forex\_Neural\_Profits.tpl (*optional*)

- i) Open your preferred MetaTrader
- ii) On the topmost left corner, click on “File” on the menu
- iii) Hover down and click on “Open Data Folder”
- iv) On the window that opens double click on “MQL4” folder
- v) Copy **Forex\_Neural\_Profits\_EA.ex4** to the “Experts” folder
- vi) Copy **Forex\_Neural\_Profits\_Indicator\_1.ex4** and **Forex\_Neural\_Profits\_Indicator\_2.ex4** to the Indicators folder
- vii) **Optional** – Install **Forex\_Neural\_Profits.tpl** to the templates folder, the templates folder resides on the same folder tree as the MQL4 folder
- viii) Congratulations your installation is complete.

### Setting up Trades with Forex Neural Profits

To start trading with Forex Neural Profits is very easy:

- I) Open your preferred pair (Works on ANY Pair)
- II) Select the preferred time frame: **H1, H4, D1**
- III) Open the navigator panel (shortcut: Ctrl + N)
- IV) Under the Experts Advisers tree: drag n drop *Forex\_Neural\_Profits\_EA.ex4* to the same chart. The Manual EA will read information from the Indicators to generate trade recommendations but will NOT print arrows on charts
- V) The other Option is to Right Click a Chart and Load the *Forex\_Neural\_Profits* template. The template will automatically Load the Indicators and EA on chart and will therefore show buy/sell arrows and will pop trade recommendations as well.

The image below shows the location of the Indicator and trade manager EA

VI) Once you load the template and Trade manager EA your charts will appears as follows:

- Blue Upward arrow = BUY Signal
- Red Downward arrow = SELL Signal
- Yellow Tick = Take Profit
- Yellow X Box = Stop Loss

VII) You can repeat this on as many charts as you wish to trade of course again depending with how much load your computer can hold.

VIII) When a trade opportunity is identified a trade alert with sound and popup will appear as follows:

IX) When the trade is confirmed you'll get another popup giving you a chance to open the trade by one click as shown below:

Congratulations you can now use Forex Neural Profits to scan the markets for more profit harvests than any other systems out there.

## Important Settings

Forex Neural Profits is not a blackbox system you can always adjust various settings to adopt your trading methodology and risk appetite. We have our recommendations but you can always feel free to test out your own parameters or integrate with other existing systems you have.

Here are our recommended settings:

- ⇒ Time Frame: H1, H4, D1
- ⇒ We recommend trading: EURUSD, GBPUSD, EURJPY, USDJPY, USDCAD, USDCHF, AUDUSD, AUDJPY and ALL other major Pairs
- ⇒ Lot size – for Each \$1,000 use a maximum of 0.05 lot per pair
- ⇒ EXIT 1- StopLoss and Take Profit - SL/TP is calculated by ATR (Average true range)
- ⇒ Reverse Signal Exit – if a trade has not hit TP/SL it will exit on the appearance of a reverse signal i.e. when there is a new trade on the opposite direction

The screenshot displays the MetaTrader 4 (MT4) platform interface. On the left, the 'Navigator' pane shows a list of indicators and expert advisors, including 'Forex\_Neural\_Profits\_Manual\_EA'. The main window shows a candlestick chart for EURAUD, H4, with a price range of 1.43537 to 1.43396. Below the chart, the 'Forex Neural Profits System' is active, showing the broker 'FinFx Trading Oy'. A settings window for 'Forex\_Neural\_Profits\_Manual\_EA' is open, showing the 'Inputs' tab. The settings table is as follows:

Variable	Value
MagicNumber	1393
Auto_SLTP	true
Atr_TP_Ratio	3.0
Atr_SL_Ratio	3.0
TakeProfit	50.0
StopLoss	15.0
Trailing_Enable	true
Trailing	10.0

Below the settings window, the 'RSI(14)' indicator is shown with a value of 35.6952. At the bottom, the 'FNP\_Indicator\_1(8,21,8)' is displayed, showing a histogram and a line graph with values: -0.002612, -0.001843, 0.000000, -0.000769.

Thank you for your purchase and consideration to use Forex Neural Profits in your trading efforts. Here at ArithmeticTrading.com we wish you all the best in your endeavor.
